Dear Sir:

**SUPPLEMENTARY RESPONSE**

As indicated in our response of April 20, 2006, we enclose for your review and consideration two sample three panel cards which correspond to the business communication card described and claimed in the above identified application.

In addition to the arguments submitted with respect to the Gropper Patent, it is noted that column 1, line 66 to column 2, line 6 of the reference discusses a fold business card to allow printing of additional subject matter. The reference concludes this solution is expensive and not well accepted. As such, the Gropper patent teaches away from the three panel printed solution now claimed.

Respectfully submitted,

  
Agent on behalf of Applicant
